NICKNAMES OF THE STATES.

Titles of Commonwealths That Were Suggested by Romance.

George Washington delivered an ad-dress before the common council of old American ballad says: New York city in 1784 in which he said: "I pray that heaven may bestow its choicest blessings on your city; that the devastation of war in which you found it may soon be without a trace;

that a well-regulated and beneficial commerce may enrich your citizens and that your state-at present the seat of empire-may set such examples of wisdom as shall have a tendency to strengthen the union."

And from that day to this New York

has been known as the Empire state. Back in the early days, before America as a nation began to make history, somebody wrote a romance and calld it "Las Sergas de Esplanadian," and somebody else published it in 1510, In this tale a beautiful pagan queen called Calafia, living in a kingdom called California, furnished an army of amazons to Esplanadian, emperor of the Greeks, to aid in defending Constantinople against eastern infidels. This land of the pagan queen was filled

Cortez, the explorer of later date, had read and been impressed by this tale. When he set out upon his expedi-tion of adventure his mind was thrilled at the thought of new riches he was to acquire, and thus he called the land which he discovered on the Pacific coast, California. From that day to this it has been known as the "golden" state, and its people have been named

tigation, this of how the states of the union came to be called what they are called today the manner in which they acquired their various nicknames and why their respective citizens are charepithets that cling to them. In other words, why are North Caroliniaus called "rovers," Indianians "hoosiers," Weigl

or Misourians "pukes?"

It is recalling facts in history to answer. In the first place, most of the states which form this union took their names originally from the stream or mountain that formed a conspicuous feature of the territory and these had been previously named by the Indians. The state of Colorado was named for the river. The word means "red." As a general thing Colorado streams are limpid and reflect the blue of the heavens and nature's green. But when mountain storms arise there is rolled through these disturbed waters

Colorado was admitted into the union the year of the centennial, and hence its nickname, the "Centennial State."

This dates back to 1827, the time when the Galena lead mines were drawing people from all over the country. So many of these came from Missouri that other Missourians who had gone on before remarked that the state had taken a

Several years previous to this time there had been a big exodus from these same mines that had given rise to the reckname of the citizens of filinois, or "Tribe of Men."
